Please use this space to describe any additional details regarding your recruitment of bilingual poll workers or language services provided.

As our current non-English speaking registered voter population less than 1%, we have no mandates and very little bi-lingual voter participation.

However, we make good effort to recruit bi-lingual volunteers for each of our five polling places by posting translated Election Worker requirement advertisements in each town with a local Polling Place, advertising in the one local Spanish-printed newspaper, and post on social media in both English and Spanish.

All Voting Precincts at each Polling Place is provided a sign to prominently display all languages spoken at each table. All required signs the each Polling Place and Voting Precinct table is displayed in both English and Spanish. A facsimile copy of the ballot is translated in Spanish and is displayed on each Voting Precinct table. While we make effort to obtaining Spanish-speaking volunteers, we are not always able to guarantee this can be met. However, any translation needs that may occur at any of our polling places are met with a few options: Some of our sites have on-site Spanish-speaking poll workers when available; we have a bilingual employee in our office Election Workers have phone access to on Election Day; and we participate the the SOS Telephone Interpreter Services program that provided access to over thirty-two different languages.

Information to contact our office for bilingual assistance is also included in every local Voter Information Guide mailed to each active registered voter in our county and posted on our website. This information is also provided to each Election Worker at each Polling Place.

Participation in the SOS Telephone Interpreter Services program requires all use to be tracked and reported. I have confirmed that there were zero uses in our county of the program, nor any use of our in-house bilingual staff on Election Day.

Translated Reference Binders were created and available at each vote center in each 3% language. Due to the complexity of printed on-demand ballots in four of our county's major languages (English, Spanish, Chinese, & Filipino), we provide reference guides in our 3% languages for voters who speak Japanese, Korean, Hindi, or Burmese to help guide them in marking their ballot.

4 binders per facsimile language x 49 vote centers = 196 total binders

2

We had implemented our Accessible Vote-At-Home unit which allowed voters to utilize one of our Dominion Voting Ballot Marking Tablet from the safety of their own home if they were unable to leave to go and vote due to a disability.

1 Dominion Ballot Marking Tablet, 1 Mobile Cart, 1 Uninterruptable Power Supply (UPS), 1 Accessible Tactile Interface (ATI), 1 set of headphones, 1 supply case, 1 ballot box, 2 election workers

3

We advertise a language assistance hotline that is displayed on our signage pillars at every vote center in the event of language aid.

Please use this space to describe any additional details regarding your recruitment of bilingual poll workers or language services provided.

Our permanent bilingual staff work through out the year to find community groups to partner with who provide services to various language communities in order to find more places for recruitment. We attend many outreach events through out our county to reach various types of communities, including our language communities. Our vote center staff consist of part time employees (paid per hour) and volunteers. It is easier to retain bilingual staff when you can offer them a part time per hour position versus a volunteer position. However we still utilize bilingual staff in all of our positions; Leads, Aides, and Student/Adult volunteers. All bilingual pollworkers receive additional compensation for their bilingual services.
